# Removes Efflorescence, Deposits & Stains

RadonSeal Efflorescence Cleaner reacts with, dissolves and removes efflorescence and lime deposits. It is also effective on metal salt stains and most sprinkler overspray stains. (Not effective on heavy rocky build-up or calcium carbonate.)

RadonSeal Efflorescence Cleaner is waterbased, non-toxic, nonflammable, and 100% biodegradable. Unlike acids, it is user-and environment-friendly and does not damage concrete or brick surfaces.

#### USES

RadonSeal Efflorescence Cleaner works on concrete, bricks, mortar, pavers, stucco. and stones.

## **COVERAGE**

Coverage depends on amount of efflorescence:

## **Typical Coverage:**

150-200 sq. ft./gal.

Heavy deposits may need re-spraying.

## **CONDITIONS**

The concrete must be dry (below 20% moisture content). Do not apply to hot surfaces in direct sunlight, or in high winds. Air and surface temperatures should be 40-120°F within 24 hours prior to and after the application. Surface should be dry for 72 hours prior to application and 24 hours after.

## **PREPARATION**

- Clean off oil, wax, and heavy dirt.
- Remove any paints, sealers, or adhesives.
- Mask glass, aluminum, tiles, and plants.

## **APPLICATION**

Apply RadonSeal Efflorescence Cleaner using a low-pressure sprayer (hand-pump garden sprayer) with a fan pattern nozzle, or with a brush.

- 1. Thoroughly mix prior to use. A mixing tool for electric drill is included. Mix through the cap in the lid for about 5 minutes. Allow excess foaming to subside, and continue mixing. (If not properly mixed, it would leave an oily surface deposit.)
- 2. Pour the cleaner into sprayer.
- 3. Apply a thorough wetting coat allowing the cleaner to react and emulsify the deposits. Do not over saturate.
- 4. While still wet, re-spray heavily effloresced areas.
- **5.** If necessary, vigorously scrub heavy deposits with a stiff bristle brush. (Thick, rocky efflorescence build-up has to be chipped off.)
- 7. On horizontal applications, wipe off any excess cleaner about 15 minutes after application with a clean mop or cloth.
- 8. Let the surface dry and sweep it clean.

## **CLEAN-UP**

Rinse tools with a mixture of water and dishwashing liquid.

Wipe overspray with clean, dry-cloth. If already dry, wipe using a 50/50 mix of denatured alcohol and water.

#### **PREVENTION**

To prevent efflorescence from returning, deep-seal concrete and block walls with RadonSeal Penetrating Concrete Sealer or brick walls and pavers with LastiSeal Concrete & Brick Sealer (visit www.radonseal.com).

#### STORAGE

Store in a cool, dry location out of direct sunlight. Avoid freezing. Store away from alkaline products, metals, salts, organics, and reducing agents.

#### SHELF LIFE

Six months from date of shipment.

#### **USE ONLY AS DIRECTED**

CAUTION: May be harmful if swallowed. May be irritating to the eves and skin. Take measures to prevent contact with product. Do not take internally. Avoid prolonged contact with skin.

This product contains: Hydrogen Peroxide.. .....7722-84-1

#### FIRST AID MEASURES:

Ingestion: Do not induce vomiting. Give several glasses of water. Seek medical attention.

Eye Contact: Flush eyes with water for 15 minutes. Seek medical attention if necessary

Inhalation: Remove to fresh air.

Skin Contact: Flush with water. Remove contaminated clothing.

#### Consult MSDS for safety information

#### KEEP OUT OF THE REACH OF CHILDREN
