

Universal Concrete Cleaner

Non-Flammable • Non-Toxic • Non-Hazardous • Non-Corrosive • Non-Carcinogenic

State-of-the-art high-strength concentrate for cleaning concrete, masonry and other surfaces. VOC-compliant, environmentally safe and 100% biodegradable.

INDUSTRIAL, COMMERCIAL, RESIDENTIAL

USES: Cleans dirt, grime, stains, oil, grease, tar, graffiti, adhesives, most resins and paints. Use on concrete floors and walls, bricks, blocks, cinderblocks, stucco, building facades, sidewalks, driveways, pavers, patios, ramps, vinyl siding, fiberglass, metal, wood, etc.

DILUTE WITH WATER TO MATCH THE JOB:

Dilute 10:1 for normal cleaning - shop floors and walls, bilges, oil-soaked ground, fireplace smoke, shower stalls, bathtubs, carpeting, etc.

Dilute 5:1 for heavy cleaning – oil-stained concrete, engine rooms, oil platforms, decks, ramps, creosete, bulkheads, etc.

Dilute 1:1 or use straight for extra heavy cleaning – oil and grease on concrete, holding tanks, graffiti, resins, carpet and tile adhesives, paint stripping, etc.

APPLICATION: On a dry surface when the surface and air temperatures are above 35°F (3°C). Scrape off heavy deposits. Spray on and let stand until the deposit liquefies (usually 1-5 minutes). Agitate or scrub severe spots with a stiff brush. Wipe or rinse off thoroughly.

COVERAGE: Approximately 100 sq. ft./gallon when used straight or 500 sq. ft./gallon in 5:1 dilution.

STORAGE: Keep in original container out of direct sunlight above freezing but below 100°F (38°C) for up to 1 year.
